Professional Summary

Senior-level training systems architect, instructional designer, and AI adoption leader specializing in scalable learning ecosystems, workflow automation, and human performance development. Proven ability to lead cross-functional training initiatives, build automated learning infrastructures, and accelerate organizational performance through data-backed decisions. Brings extensive experience in public speaking, community building, operational leadership, and multimedia content development. Recognized as a trusted advisor and internal AI thought leader who enhances efficiency, elevates learner engagement, and drives the successful launch and growth of new training programs and teams.

Professional Experience

Training Specialist | WHOOP | Remote | May 2023 – Present

- **Led design and facilitation of 200+ live and asynchronous training sessions** across Membership Services, Wholesale, and cross-functional teams, improving new hire proficiency and confidence.
- **Developed 40+ eLearning courses, scripts, and structured learning paths**, supporting large-scale organizational initiatives and accelerating time-to-ramp for new hires.
- **Serve as an internal AI thought leader**, publishing a weekly AI intelligence digest read by 150+ employees, synthesizing global AI trends, product implications, and emerging opportunities for WHOOP.
- **Act as the champion for AI adoption experimentation** across the learning org, evaluating tools such as Make.com, n8n, Claude, GPT, and Replit, and identifying scalable automation opportunities for training and reporting.
- **Built and maintained automation workflows** using Parabola, Google Sheets, and the 360Learning API, reducing manual reporting time by **40+ hours per month**.
- **Primary architect of WHOOP's end-to-end training automation ecosystem**, integrating data flows, reporting pipelines, automated messaging, and learner tracking across platforms.
- **Designed scalable learning ecosystems** combining eLearning assets, automated reporting, and end-to-end onboarding flows, improving training efficiency and reducing operational overhead.
- **Developed and maintain a custom Replit-based training operations dashboard** used by the learning team to centralize projects, deadlines, and communication workflows, increasing team visibility and alignment.
- **Partner cross-functionally with Membership Services, Wholesale, Product, and Operations** to identify training gaps, influence program design, and improve performance outcomes across multiple teams.
- **Supported key data initiatives**, including building multi-platform podcast analytics dashboards, consolidating reporting from several sources and enabling leadership insights at a glance.

Membership Services Agent | WHOOP | Remote | Oct 2021 – May 2023

- Supported 100+ members per week across multiple channels with technical troubleshooting and device guidance.
- Identified recurring issues and delivered insights to product/support teams, helping reduce repeat contacts and improve UX.
- Maintained high performance metrics, including member satisfaction, resolution speed, and case quality.

Club Operations Manager | Blink Fitness | New York & Houston | Sept 2018 – May 2021

- Managed daily operations at high-traffic fitness clubs serving 3,000+ members, including **all interviewing, hiring, and scheduling**, as well as ensuring the facility was **immaculately maintained, fully operational, and meeting brand standards** at all times.
- **Played a key role in launching 4 new Blink Fitness locations in the Houston market**, supporting all pre-opening operational needs and ensuring smooth day-one readiness.
- **Led and delivered training for the majority of newly hired associates** across these new locations, establishing consistent service and performance standards during rapid expansion.
- **Increased personal training revenue** by leading coaching systems and trainer development programs.

CrossFit Coach | Various Locations | Long Island, NY & Houston, TX | Jan 2013 – Aug 2019

- Coached 1,000+ athletes across group classes, developing safe, effective, and scalable training for diverse skill levels.
- **Facilitated in-person community events and fitness competitions**, coordinating schedules, athlete flow, and class logistics to ensure successful execution.
- **Maintained strict class timelines**, ensuring all programmed elements were completed within the hour and classes transitioned smoothly without running over.
- **Developed strong public-speaking and member-engagement skills**, consistently helping new members feel comfortable, welcomed, and integrated into the community—even when surrounded by complete strangers.
- Provided customized coaching on nutrition, recovery, and long-term behavior change.
- Built strong community culture focused on health, accountability, and continuous improvement.

Education

B.S. Business Administration | Farmingdale State College | 2018
ADDIE Instructional Design Course | WHOOP | 2025

Certifications

Google AI Essentials (Coursera / Google Career Certificates), 2025

Competencies include AI fundamentals, responsible AI use, prompt engineering, AI-assisted productivity, and future-focused AI literacy.

Skills

Core Skills

Instructional Design · Learning Experience Design · Automation & Workflow Systems · AI Tool Implementation · Data-Driven Training Systems · Cross-Functional Collaboration · Live Facilitation · Performance Coaching · Technical Troubleshooting · Training Operations · Reporting & Dashboard Development

AI & Emerging Technology Skills

AI Literacy & Prompt Engineering · Applied AI for Productivity · Responsible AI Use · Workflow Augmentation with AI Tools · AI-Assisted Content Development · AI Experimentation & Evaluation

Tools & Technical Skills

Parabola · Make.com · n8n · Replit · 360Learning (LMS) · Google Sheets (Advanced) · GPT / Claude / AI Assistants · Data Dashboards · API-based automation workflows · LMS Administration · Workflow Orchestration Tools · Video Editing (Short-form & Long-form Content)
